Subject: Sioux City WWTP EPA No IA0043095; Iowa NPDES No 9778001

Mr. Marshall,

The City of Sioux City would like to have a brief phone call with you regarding an email you were copied on from Desiree McCalsen on 5/26/17. The email and memo that was attached were related to plant capacity for the Sioux City WWTP.

I'd like to arrange for the following people to join us on a call to our office sometime after 9 am Friday (June 9) if you are available:

- Jim Maynes, Sioux City WWTP Supt.
- Tom Pingel, Sioux City WWTP Shift/Operations Supervisor
- Jeremy Lay, PE, Bartlett & West Engineering
- Kim Hoskins, PE, KimHEC Hoskins Environmental Consulting
- Myself

From our perspective a 5-10 minute call at this point would be adequate. The best time for us is 10:30 am, however we will adjust as much as we can if you prefer another time. Jeremy and Kim will be conferencing in from another location. If you can provide a phone number that you prefer we call we will certainly use that.

Thank you,

Mark Simms
Utilities Director
City of Sioux City
